CONFLICT OF INTEREST - DECLARATION

AWADH DENTAL COLLEGE & HOSPITAL, JAMSHEDPUR

Tobacco use is associated with more than 5 million deaths per year worldwide.

Tobacco smoking & chewing causes an increased risk of developing various life threatening systemic diseases also causes inflammation of gum and serious condition like oral cancer.

Younger individuals especially adolescents are more vulnerable to tobacco use causing addiction to become wide spread in the community.

Effective & comprehensive tobacco control programmes can significantly reduce the prevalence of tobacco use and contribute in improving the overall health of the community.

The Tobacco Cessation centre at Awadh Dental College & Hospital, believes and strives in spreading awareness regarding the ill effect of tobacco addiction as it's the first step in the war against the evil of tobacco addiction.

Our aim is to reach the goal of a tobacco free community where good health prevails.
